

IILM UNIVERSITY, GREATER NOIDA

INTERNSHIP REPORT PRESENTATION

Junior Software Developer

Agribusiness Solution — Internship at YuvaIntern

Internship Program | Supported by National Skill Development Corporation (NSDC)

Lakshya Sharma

Roll No. 2410031752 | B.Tech CSE (AI & ML), 3rd Year – Sem 5

August 2026

**Lakshya
Sharma**

B.Tech – Computer Science & Engineering (AI
& ML)

ABOUT THE STUDENT

Candidate Profile

Roll Number
2410031752

Institute
IILM University, Greater Noida, U.P.

Programme
B.Tech CSE (AI & ML) — 3rd Year, Sem 5, Section 3CSE9

Internship Domain
Junior Software Developer – Agribusiness Solution

Duration
4 Weeks | Aug 01 – Aug 29, 2026 (Remote)

ABOUT THE PROGRAM

YuvaIntern & NSDC

YuvaIntern is an internship platform, supported by the National Skill Development Corporation (NSDC) under its “Re-Imagine Future” initiative, that connects students with structured, project-based internships across software development and other technical domains — combining practical assignments with mentorship and a formal Certificate of Experience on completion.

NSDC Supported

Backed by the National Skill Development Corporation's “Re-Imagine Future” initiative.

Henry Harvin Group

Internships offered in partnership with organizations under the Henry Harvin group.

Certified Experience

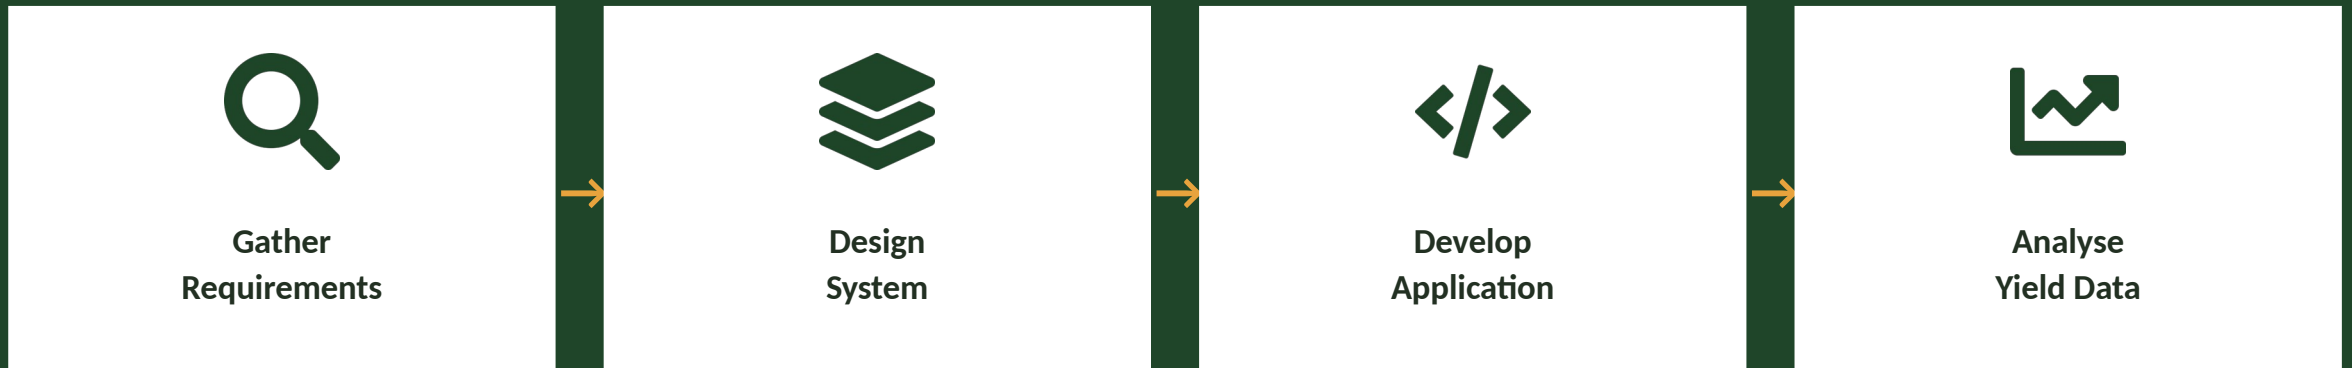

Verified Certificate of Experience awarded on successful completion.

PROBLEM STATEMENT

Bridging Software & Agribusiness

Agribusiness stakeholders often rely on manual, fragmented methods to track farm data, crop performance, and yield trends. While engineering students learn software fundamentals in coursework, they rarely get to apply these skills to a real, domain-specific problem — translating an expert's needs into a functional application.

This internship addressed that gap — practically building a software solution for agribusiness:

What the Internship Set Out to Achieve

Requirement Gathering

Understand agribusiness stakeholder needs and translate them into functional software specifications.

Database Design

Design a database schema (MySQL/MongoDB) to store farm, crop and yield-related data.

Application Development

Build a web-based frontend and backend using Java, Python and JavaScript.

Data Analysis

Apply Pandas and NumPy to generate simple, actionable yield-related insights.

Cloud & Reporting

Explore AWS deployment basics and build a Power BI reporting dashboard.

Professional Practice

Gain hands-on exposure to real-world project workflows and software practices.

The Toolkit Behind the Project

Core Languages

Java, Python, JavaScript, C

Frontend

HTML, CSS, JavaScript

Databases

MySQL, MongoDB, SQL

Data Analysis

Pandas, NumPy

Cloud Basics

AWS

Dev Tools

Git / GitHub, VS Code

Reporting

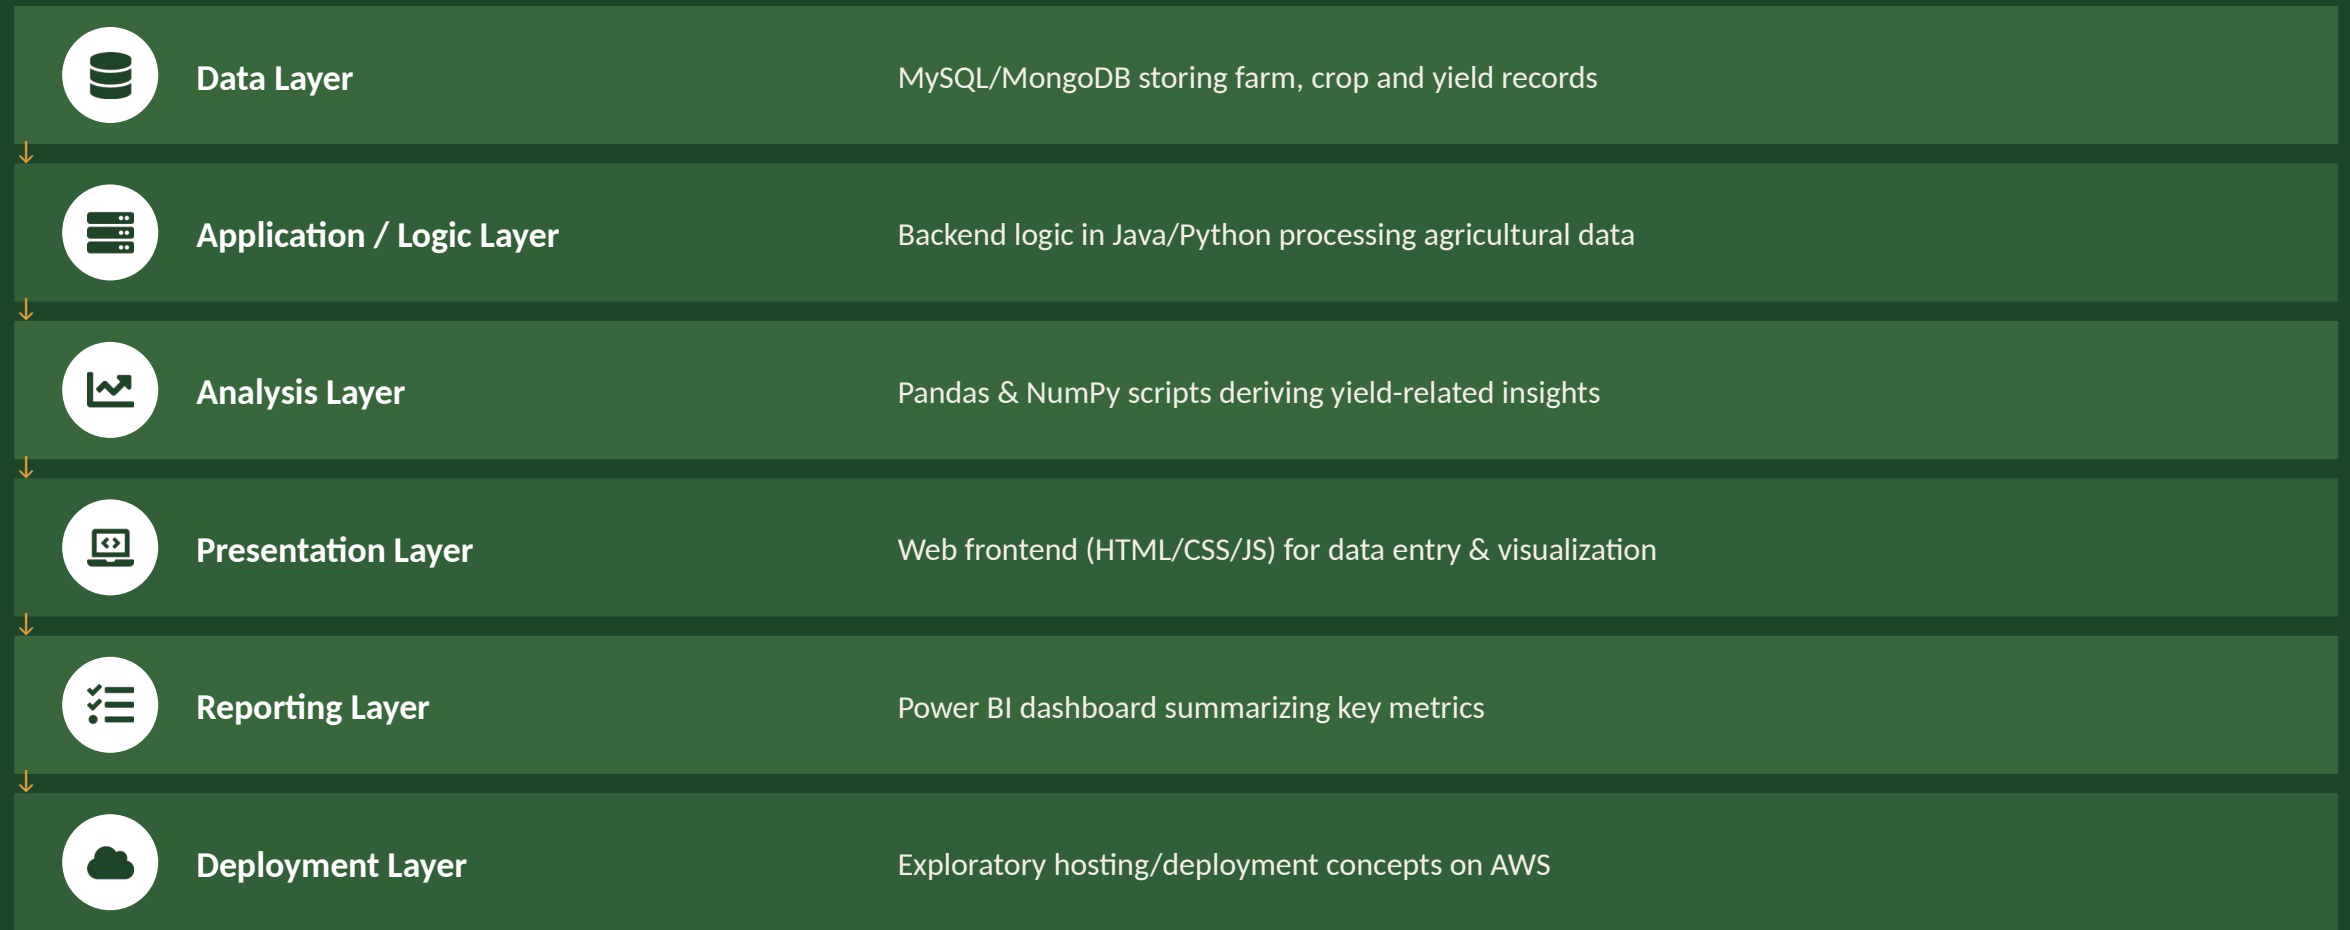

Power BI, Excel

Application Layer

Backend Logic (Java/Python)

From Requirements to Reporting Dashboard

The 4-Week Project Journey

1 WEEK

Onboarding & Requirement Analysis

Understanding the agribusiness domain, requirement gathering, environment setup

2 WEEK

System Design & Database

Designing architecture and database schema (MySQL/MongoDB); UI wireframing

3 WEEK

Application Development

Building frontend & backend modules; data analysis with Pandas & NumPy

4 WEEK

Testing, Deployment & Docs

Testing modules, AWS basics, Power BI dashboard, final documentation

Note: This was an unpaid, learning-focused internship.

EXPECTED OUTCOMES

Skills & Capabilities Gained

- ✓ Ability to gather and translate real-world business requirements into functional software specifications
- ✓ Practical understanding of designing and developing a database-backed web application
- ✓ Hands-on exposure to backend development (Java/Python) and frontend development (HTML/CSS/JavaScript)
- ✓ Basic capability to analyse data using Pandas and NumPy to generate actionable insights
- ✓ Exposure to cloud (AWS) and reporting (Power BI) tools used in real-world software projects
- ✓ Successful completion with a Certificate of Experience issued by YuvaIntern

CERTIFICATION

Successfully Completed

Role

Junior Software Developer – Agribusiness Solution

Issued By

YuvaIntern (NSDC Supported)

Duration

4 Weeks | Aug 01 – Aug 29, 2026

Status

Certificate of Experience Awarded

CERTIFICATE OF EXPERIENCE

To Whomsoever It May Concern

This is to certify that **Lakshya Sharma** successfully completed an internship with **YuvaIntern** in the role of **Junior Software Developer - Agribusiness Solution**.

Throughout the tenure of this internship, Lakshya demonstrated consistent dedication, professionalism, and a strong willingness to learn and grow. Their contributions were valued by the entire team at YuvaIntern, and they conducted themselves with integrity and commitment throughout the program.

We commend Lakshya's hard work and wish them continued success in all future endeavors.

Date of Issue: August 29, 2026
